To Whom It May Concern,

MEMBERSLINK CLUB MANAGEMENT SYSTEM

IQDynamics's Memberslink Club Management System was selected for implementation in 2004/5 and the core modules went "Live" in 2006. A suite of 25 odd modules were implemented since then. With the system, it has moved NUSS to the next level of automation and efficiency. At the same time, it has enhanced members experience and convenience.

The Management and staff have also been helpful and have shown considerable level of professionalism and knowledge.
